Dear Lynn,

This letter is to update you on our current situation at Mountain Valley Stone in Brown's Canyon. As you were informed the other day by Robert, we are going to be expanding our parking lot and storage area over the next 90 days. We will be moving toward the west property boundary.

D C Excavating will be moving into the lower portion of our quarry within the next 2 weeks to crush our overburden. They should be there for roughly 6 months.

We are also in the process of applying for a well permit. The well will be dug somewhere in the South East portion of the lot, or possible in the lot next to us.

Sincerely,

Brad Young
Safety Manager
